- Maui Per Capita
- Oahu Per Capita
- Kauai Per Capita
- Big Island Per Capita
Hawaii COVID-19 New Daily Cases by County Over Time as of 4/29/20
New Daily COVID-19 Cases by County Over the last 14 days (4/28/20)

- Maui New Cases
- Oahu New Cases
- Kauai New Cases
- Big Island New Cases
* There were no travelers categorized as “intended residents” or “transit” in the last 7 days.
Hawaiian Electric extends moratorium on disconnections

• Maui Electric customers should NOT worry about their power being shut off due to nonpayment through the end of June.
• If you are struggling financially, MECO encourages customers to contact them for help.
• For more information, visit www.HawaiianElectric.com or call (808) 871-9777.
Statewide Coordination

Governor Ige’s Supplemental Proclamation, April 25

• Requires each County to transmit emergency rule changes to Governor
• Counties will propose changes unique to their needs
Other Counties are opening essential activities that are already allowed (with modifications) in Maui County.

Examples include:

- Real Estate and Property Management (on appointment basis, critical situations)
- Car dealerships (on appointment basis, in critical situations)
- Automated Car Washes
- Floral wholesale and deliveries
- Cannabis Dispensaries
Decision-Making Factors:

1. Community Following Rules
2. Decline in COVID-19 Cases
3. Available Testing
4. Continued healthcare system capacity

*Changes are subject to review by Governor and Attorney General*
MAUI COUNTY COVID-19 RE-OPENING

PUBLIC HEALTH
Protecting our Kupuna and most vulnerable communities

COMMUNITY
Compliance with Social Distancing, Face Coverings, & Other Rules

ECONOMY
Businesses operating with new safety modifications

RE-OPENING
Day-by-Day Approach

- The situation and decisions are fluid
- Data will be collected from:
  - Parks Enforcement Officers
  - Police
  - Hawaii National Guard
  - Community Calls & Feedback
Risk Assessment

• Based on Public Health Principles from Johns Hopkins Center for Health Security
• Risk is based on “Contact Intensity” and “Number of Contacts”
• High risk doesn’t mean we won’t ever allow it – it means more mitigation will be needed.

• Risk CAN BE ADJUSTED with social distancing and modifications
  (i.e. PPE, physical barriers, contact reduction)
MAUI COUNTY
COVID-19 RISK ASSESSMENT

Based on Public Health Principles for a Phased Re-Opening During COVID-19: Guidance for Governors. Published by Johns Hopkins Bloomberg School of Public Health, Center for Health Security. April 17, 2020
REMINDER:

• Risk can be mitigated with social distancing and modifications
  (Examples: PPE, physical barriers, contact reduction)
• High risk means customers and businesses will need to work together to minimize spread

* Note: This includes all beach activities, such as sunbathing and congregating.

The “New Normal”

Experts say “new normal” MAY involve...

- Social distancing rules
- Changing workplace layouts
- Adjusting work shifts
- Working from home
- Adjusting to school schedules/closures
- Temperature Checks
- & More...

...These modifications may reduce risk of spread. Please refer to CDC for best practices.
The “New Normal” - Modifications

• Businesses may need to continue to make adjustments in operations, especially as phased openings take place.

• For resources on suggested future workplace and business adjustments visit:
